## Education

University of North Florida – December 2010  
BFA—concentration in Graphic Design and Digital Media  
Magna Cum Laude

## Design Experience

### **EverBank—Aug. 2014–Current (Jacksonville, Florida)**

Position: *Digital UX Designer*

Optimizing and improving EverBank sites in SiteCore and ensuring designs are within brand, collaborating with immediate team and external teams to create innovative digital solutions with a focus on user experience, leading projects that include prototyping, design and development, producing high fidelity wireframes, working within TFS and GitHub for version control, writing tests to prevent regressions, HTML5/CSS3/JavaScript coding, working with Jade, Angular, SASS and Gulp, cross-browser testing and compatibility.

### **Angela Creates—Feb. 2010–Current (Jacksonville, Florida)**

Position: *Freelance Web Designer*

Designing and optimizing pages for web, creating banner ads for Yahoo and Google, creating high fidelity prototypes and moodboards, building responsive, user friendly websites, HTML5/CSS3 coding, leading and managing projects, ensuring projects are on time and within client's budget, third party vendor management and collaboration, researching and providing guidance on best practices to clients.

### **Vizergy—Feb. 2011–Aug. 2014 (Jacksonville, Florida)**

Position: *Senior Web Designer*

Designing, building, maintaining and updating websites, designing promotional banners, creating mobile websites and Facebook pages, HTML5/CSS3/JavaScript coding, implementing and troubleshooting JavaScript, cross-browser testing and compatibility, managing freelancers and workflows, training new employees, performing creative QA's on buildouts and website comps, creating prototypes and moodboards.

### **Pilot Pen—May 2010–Feb. 2011 (Jacksonville, Florida)**

Position: *Graphic Designer*

Designed collateral materials, sell sheets, posters promoting new products, Pen World advertisements and flyers for various retail clients, redesigned the packaging for Precise pen and store displays, created mock-ups for various displays and packages and optimized images for the company website.
